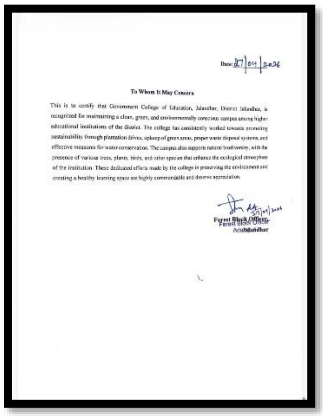
RECOMMENDATIONS

1. An Environmental Policy should be framed and effectively communicated to all teaching, non-teaching staff, and students of the college.
2. Regular environmental monitoring such as ambient air quality, water quality, and wastewater analysis should be conducted through authorized agencies/laboratories at periodic intervals.
3. Proper treatment and scientific disposal systems for sewage and wastewater should be strengthened to ensure environmentally safe discharge practices.
4. A systematic record and inventory of e-waste generated on the campus should be maintained in accordance with applicable e-waste management rules.
5. Water meters may be installed at suitable locations in the college to monitor water consumption and encourage judicious use of water resources.
6. Environmental awareness programmes, plantation drives, cleanliness campaigns, and other green initiatives should be increased to promote sustainability on the campus.
7. An Environment/Green Committee should be constituted to supervise, implement, and review eco-friendly processes within the college campus and surrounding areas.



Date: 27/04/2026

To Whom It May Concern

This is to certify that Government College of Education, Jalandhar, District Jalandhar, is recognized for maintaining a clean, green, and environmentally conscious campus among higher educational institutions of the district. The college has consistently worked towards promoting sustainability through plantation drives, upkeep of green areas, proper waste disposal systems, and effective measures for water conservation. The campus also supports natural food sources, with the presence of various trees, plants, birds, and other species on the enhance the ecological atmosphere of the institution. These dedicated efforts made by the college in preserving the environment and creating a healthy learning space are highly commendable and deserve appreciation.
